

YES

Supplying ample materials to make the state a leading producer... West Virginia's forest products industry

Thriving industry

- 12 million acres of forestland and 75 billion board feet of timber inventory
- Second-leading hardwood state in the U.S.
- Ranks third nationally in percentage of forested land

West Virginia's products

- Oriented strand board
- Hardwood plywood
- Laminated veneer lumber
- Hardwood flooring
- Furniture
- Cabinets
- Wood pellets
- Lumber
- Pallets, custom crates
- Rustic rail fence
- High-quality barrels for spirits

Qualified workforce

Thousands of highly skilled and experienced technical workers are available and ready to work. The state's educational institutions offer associate and bachelor's degree programs in forestry-related subjects.
